1. Introduction to Geography Part 1 (50.00%)

Learning Targets

1.1 I can create a mental map of the 7 continents, 5 oceans, Prime Meridian, Equator, and the hemispheres of the world. (unassisted with no list)

Learning Target	Descriptor	Definition
4	Proficient	I can create a mental map of the 7 continents, 5 oceans, Prime Meridian, Equator, and the hemispheres of the world. (unassisted with no list)
3	Developing	I can locate and label the 7 continents, 5 oceans, Prime Meridian, Equator, and the hemispheres of the world. (assisted-a blank map with list)
2	Basic	I can locate the 7 continents, 5 oceans, Prime Meridian, Equator, and the hemispheres of the world. (matching)
1	Minimal	I can locate the Prime Meridian, Equator, and the hemispheres of the world.
0	No Evidence	No evidence shown.

1.2 I can relate latitude to the climate of a place. (given a place, identify its latitude, describe how latitude affects its climate)

Learning Target	Descriptor	Definition
4	Proficient	I can relate latitude to the climate of a place. (given a place, identify its latitude, describe how latitude affects its climate)
3	Developing	I can determine the latitude and longitude of given place.
2	Basic	I can determine the hemisphere of a place based on given coordinates.
1	Minimal	I can determine the difference between latitude and longitude.
0	No Evidence	No evidence shown.

1.3 I can select a map to use for a specific purpose.

Learning Target	Descriptor	Definition
4	Proficient	I can select a map to use for a specific purpose.
3	Developing	I can describe the function of different maps.
2	Basic	I can identify different types of maps.
1	Minimal	I can identify the key on a map and tell what the key is used for.
0	No Evidence	No evidence shown.

1.4 I can determine what factors affect where people live using both a physical map and population distribution map.

Edit page

Learning Target	Descriptor	Definition
4	Proficient	I can determine what factors affect where people live using both a physical map and population distribution map.
3	Developing	I can describe how physical geography affects where people live.
2	Basic	I can locate specific physical geographical features on a map.
1	Minimal	I can identify examples of geographical features.
0	No Evidence	No evidence shown.

2. Introduction to Geography Part 2 (50.00%)

Learning Targets

2.1 I can model and demonstrate the Earth's movements to correlate day and night and how the seasons change in the Northern Hemisphere.

Learning Target	Descriptor	Definition
4	Proficient	I can model and demonstrate the Earth's movements to correlate day and night and how the seasons change in the Northern Hemisphere.
3	Developing	I can model the Earth's movements to demonstrate day and night or how the seasons change in the Northern Hemisphere.
2	Basic	I can describe revolution and rotation of the Earth.
1	Minimal	I can differentiate between revolution and rotation.
0	No Evidence	No evidence shown.

2.2 I can analyze and interpret climate graphs to identify the characteristics of particular climate regions.

Learning Target	Descriptor	Definition
4	Proficient	I can analyze and interpret climate graphs to identify the characteristics of particular climate regions.
3	Developing	I can create a climate graph of a particular city and connect it to a particular climate region.
2	Basic	I can identify and describe five major climate regions of the world.
1	Minimal	I can identify five major climate regions of the world.
0	No Evidence	No evidence shown.

2.3 I can clearly describe cultural diffusion with concrete examples.

Learning Target	Descriptor	Definition
4	Proficient	I can clearly describe cultural diffusion with concrete examples.
3	Developing	I can describe cultural diffusion.
2	Basic	I can identify the characteristics that make up culture.
1	Minimal	I can define culture.
0	No Evidence	No evidence shown.
