AP Psychology A

1. Scientific Foundations of Psychology (20.00%)

Learning Targets

1.1 I can define, explain and apply concepts and vocabulary associated with AP UNIT 1: Scientific Foundations of Psychology.

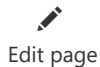

Learning Target	Descriptor	Definition
4	Proficient	I can define, explain and apply concepts and vocabulary associated with AP UNIT 1: Scientific Foundations of Psychology.
3	Developing	I can define and explain concepts and vocabulary associated with AP UNIT 1: Scientific Foundations of Psychology.
2	Basic	I can define vocabulary associated with AP UNIT 1: Scientific Foundations of Psychology.
1	Minimal	I can list vocabulary associated with AP UNIT 1: Scientific Foundations of Psychology.
0	No Evidence	No evidence shown.

1.2 I can describe, calculate, analyze and interpret quantitative data.

Learning Target	Descriptor	Definition
4	Proficient	I can describe, calculate, analyze and interpret quantitative data.
3	Developing	I can describe and calculate quantitative data.
2	Basic	I can distinguish the purposes of descriptive and inferential statistics.
1	Minimal	I can describe what is being show in a statistical chart and/or graph.
0	No Evidence	No evidence shown.

1.3 I can discuss, evaluate and analyze psychological research methods associated with AP Unit 1: Scientific Foundations of Psychology.

Learning Target	Descriptor	Definition
4	Proficient	I can discuss, evaluate and analyze psychological research methods associated with AP Unit 1: Scientific Foundations of Psychology.
3	Developing	I can compare and contrast research methods associated with AP Unit 1: Scientific Foundations of Psychology.
2	Basic	I can describe a research method associated with AP Unit 1: Scientific Foundations of Psychology.
1	Minimal	I can state the name of a research method associated with AP Unit 1: Scientific Foundations of Psychology.
0	No Evidence	No evidence shown.

2. Biological Bases of Behavior (20.00%)

Learning Targets

2.1 I can define, explain and apply concepts and vocabulary associated with AP UNIT 2: Biological Bases of Behavior.

Learning Target	Descriptor	Definition
4	Proficient	I can define, explain and apply concepts and vocabulary associated with AP UNIT 2: Biological Bases of Behavior.
3	Developing	I can define and explain concepts and vocabulary associated with AP UNIT 2: Biological Bases of Behavior.
2	Basic	I can define vocabulary associated with AP UNIT 2: Biological Bases of Behavior.
1	Minimal	I can list vocabulary associated with AP AP UNIT 2: Biological Bases of Behavior.
0	No Evidence	No evidence shown.

2.2 I can discuss, evaluate and analyze psychological research studies associated with AP Unit 2: Biological Bases of Behavior.

Learning Target	Descriptor	Definition
4	Proficient	I can discuss, evaluate and analyze psychological research studies associated with AP Unit 2: Biological Bases of Behavior.
3	Developing	I can compare and contrast research studies associated with AP Unit 2: Biological Bases of Behavior.
2	Basic	I can describe a research study associated with AP AP Unit 2: Biological Bases of Behavior.
1	Minimal	I can state the name of a research study associated with AP AP Unit 2: Biological Bases of Behavior.
0	No Evidence	No evidence shown.

3. Sensation and Perception (15.00%)

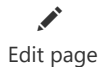

Learning Targets

3.1 I can define, explain and apply concepts and vocabulary associated with AP UNIT 3: Sensation and Perception.

Learning Target	Descriptor	Definition
4	Proficient	I can define, explain and apply concepts and vocabulary associated with AP UNIT 3: Sensation and Perception.
3	Developing	I can define and explain concepts and vocabulary associated with AP UNIT 3: Sensation and Perception.
2	Basic	I can define vocabulary associated with AP UNIT 3: Sensation and Perception.
1	Minimal	I can list vocabulary associated with AP UNIT 3: Sensation and Perception.
0	No Evidence	No evidence shown.

3.2 I can discuss, evaluate and analyze psychological research studies associated with AP Unit 3: Sensation and Perception.

Learning Target	Descriptor	Definition
4	Proficient	I can discuss, evaluate and analyze psychological research studies associated with AP Unit 3: Sensation and Perception.
3	Developing	I can compare and contrast research studies associated with AP Unit 3: Sensation and Perception.
2	Basic	I can describe a research study associated with AP Unit 3: Sensation and Perception.
1	Minimal	I can state the name of a research study associated with AP Unit 3: Sensation and Perception.
0	No Evidence	No evidence shown.

4. Learning (15.00%)

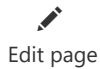

Learning Targets

4.1 I can define, explain and apply concepts and vocabulary associated with AP UNIT 4: Learning.

Learning Target	Descriptor	Definition
4	Proficient	I can define, explain and apply concepts and vocabulary associated with AP UNIT 4: Learning.
3	Developing	I can define and explain concepts and vocabulary associated with AP UNIT 4: Learning.
2	Basic	I can define vocabulary associated with AP UNIT 4: Learning.
1	Minimal	I can list vocabulary associated with AP UNIT 4: Learning.
0	No Evidence	No evidence shown.

4.2 I can discuss, evaluate and analyze psychological research studies associated with AP Unit 4: Learning.

Learning Target	Descriptor	Definition
4	Proficient	I can discuss, evaluate and analyze psychological research studies associated with AP Unit 4: Learning.
3	Developing	I can compare and contrast research studies associated with AP Unit 4: Learning.
2	Basic	I can describe a research study associated with AP Unit 4: Learning.
1	Minimal	I can state the name of a research study associated with AP Unit 4: Learning.
0	No Evidence	No evidence shown.
