Information and Action

A. Standards Based Grading (Larry Zeman and staff)

Wendy Weaver reports she has been to some meetings, etc. to present on standards based grading and other schools are looking to CW for guidance on how to implement this. Students that were present report they are learning at a higher level. They also report that studying is easier since they know exactly what their learning targets are. Teachers feel like it is easier to pinpoint what a student is struggling with through these learning targets, also. Students say that with academic resource it is easier to know what needs to be studied during this time, and that makes it easier to “get out of” the academic resource.

Motion by Bonczyk, seconded by Lentz that based upon the information provided, the Board finds that the organization and the superintendent are in compliance and making progress toward achieving the desired results. Motion carried.
